INVINCI[®]

WALLCOVERING

The interplay between art and science is the inspiration behind Invinci[®] Wallcovering.

The name Invinci is a reference to the birthplace of Leonardo da Vinci, who seamlessly combined art and science—viewing each as vital to exploring the natural world. His pursuit of knowledge influenced his art, while his imagination informed his scientific inquiry.

The Invinci collection celebrates the expressive, yet thoughtful design of patterns and textures—and the methodical, yet innovative exploration of materials.

Invinci is where curiosity merges with craft—giving rise to something beautiful, brilliant, and ageless.

INVINCI®
WALLCOVERING

Andra

Soft horizontal striations echo the character of layered natural materials, bringing warmth, depth, and balance to the wall.
